

Shinpuhkan Dataset(s) Release Agreement

2014/01/01

Introduction

The goal of the Shinpuhkan dataset(s) is to develop new techniques, technology, and algorithms for person image processing such as Person Re-identification, Person Image Retrieval and Person Recognition. Kyoto University has copyright on the data and is the principal distributor of the Shinpuhkan dataset(s). The dataset is meant to aid research efforts in the general area of developing, testing and evaluating algorithms for person image processing. The dataset(s) currently includes version 2014, which is named “Shinpuhkan2014 dataset”. The dataset(s) will include further versions.

Release of the dataset

To advance the state-of-the-art in person re-identification, this dataset is distributed to the researcher community. All further uses of the dataset will be considered on the case-by-case bases. To receive a copy of the dataset, the requestor must sign this document and agree to observe the restrictions listed below.

Consent: The researcher(s) agrees to the following restrictions on the Shinpuhkan dataset(s):

1. Redistribution

Without prior written approval from Kyoto University, the Shinpuhkan dataset(s), in whole or in part, will not be further distributed, published, copied or disseminated in any way or form whatsoever, whether for profit or not. This includes further distributing, copying or disseminating to a different facility or organizational unit in the requesting university, organization, or company.

2. Modification and Commercial Use

Without prior approval from Kyoto University, the Shinpuhkan dataset(s), in whole or in part, may not be changed or used for commercial purposes.

3. Requests for the Shinpuhkan dataset

All requests for the Shinpuhkan dataset(s) will be forwarded to Kyoto University Principal Investigator(s).

4. Publication Requirements

In no case should the still frames are used in any way that could cause the original

subject embarrassment or mental anguish. Data of human subjects is provided in coded form (without personal identifying information). All human data is collected under the R&D Program for Implementation of Anti-Crime and Anti-Terrorism Technologies for a Safe and Secure Society. Subject consent permits publication (paper or web-based) of the data (including image data) for scientific purposes only.

5. Citation/Reference

All documents and papers that report on research that uses the Shinpuhkan dataset(s) will acknowledge the use of the dataset by including an appropriate citation to the following:

Y. Kawanishi, Y. Wu, M. Mukunoki and M. Minoh, "Shinpuhkan2014: A Multi-Camera Pedestrian Dataset for Tracking People across Multiple Cameras," the 20th Korea-Japan Joint Workshop on Frontiers of Computer Vision (FCV), 2014.

6. Publications to Kyoto University

A copy of all reports and papers that are for public or general release that use the Shinpuhkan dataset(s) are appreciated to forward upon release or publication to Kyoto University Principal Investigator(s).

7. No Warranty

THE PROVIDER OF THE DATA MAKES NO REPRESENTATIONS AND EXTENDS NO WARRANTIES OF ANY KIND, EITHER EXPRESSED OR IMPLIED. THERE ARE NO EXPRESSED OR IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, OR THAT THE USE OF THE MATERIAL WILL NOT INFRINGE ANY PATENT, COPYRIGHT, TRADEMARK, OR OTHER PROPRIETARY RIGHTS.
